*with Tequila...*

# THE LEGEND OF TEQUILA

The legend of Tequila says that during a heavy thunderstorm, farmer Jalisco was looking out on his field of Blue Agave plants when one of the plants was struck by lightning.

By surprise, he discovered the precious liquid inside the core of the plant. He decided to try and distil it and that's where the story was born!

Due to the success of Tequila, along with the inability to cope with the demand of this noble white liquid, there was a need to protect the Blue Agave plants from being stolen and transferred to other regions of the country.

This resulted in the recognition of Tequila as ONLY those products with 51% and above of Blue Agave grown in the region of Jalisco!
